Note: In order to assess the possibility of obtaining life insurance with the presence of kidney disease, it is helpful to obtain results to many of the test related questions below. A quick call by the proposed insured to their health care provider may indicate many of the test results requested. Alternatively, perhaps the health care provider may be willing to fax the latest lab findings, avoiding the delays of waiting for a formal APS. If this initial investigation indicates only minor abnormalities, and offers of insurance are likely, a full APS, as well as current lab studies, will be requested by the insurance company during the formal application process.
